

Bumpy Beeler™

collectable jewelry created using vintage & contemporary
buttons with sterling silver
celebrating the beauty in buttons

HOW WE STARTED

I owned a thrift shop for several years during which I collected lots of buttons. I had no real plans for my gems except to pull them out once and in awhile and look at them. I also noticed that many customers enjoyed looking through the large bowl of buttons I had for sale. "Hey, is there some sort of button craze going on, what are we going to do with all these buttons?" The time came for me to sell my business and use my art degree. I worked for a year as a carpenter & at night went off to my studio to come up with clever designs to display these buttons...then I tried to sell them. My first shop was one in my hometown, Dunia Eco-Store. They were so nice & they loved them. I was off and running & now, a year later, I am creating these beauties full time thanks to all my great customers...YEAH!

THE JEWELRY

I search high & low for the greatest buttons on earth...there are still plenty I haven't unearthed yet. I find them in the fashion district in NYC, in antique shops, flea markets, yard sales, overseas, & I make them. I have 5 categories of button jewelry: Czech Glass, Swarovski Crystal, Contemporary, Handmade, & Vintage. They are all made with silver, the necklaces come on a 16", specify if you want 18", (\$1 extra) sterling silver snake chain. They can be shined up with a silver polishing cloth, tips and all (buttons don't need to be cleaned unless they are sterling). *Please note actual colors may be slightly different from what is printed here.

I WANT THEM IN MY STORE!

Me too! The nature of the buttons business is that it's always changing. Many of the buttons are limited edition & one-of-a-kind. In this catalogue I featured some of the more popular pieces & show examples of buttons I have presently. We can work together to come up with a great collection that will fit your shop. Keeping this in mind, we will take the liberty of replacing buttons that you ordered with different ones if that style is no longer available. If you don't love what we picked we will change it, promise. Please contact for wholesale pricing.

HOW WILL THEY SELL THE BEST?

You're ordering these because you like them, when you receive your package and put one on you will LOVE them. This is how they sell best: your enthusiasm for the jewelry. Encourage customers to try them on. Display them on a counter on a neck form. Do not hang them, they need to rest against a flat surface. Tell their story. Many of these buttons had other lives, lived in other decades, whose hands buttoned up a victorian dress? We like to feel special..my necklaces are special & unique. Have fun-wear one!
